MOSQUITOS THRIVE ON OIL

Undiminished in Numbers by Philadelphia's Crusade. REPUBLIC SPECIAL.
Philadelphia, June 4.—Witnesses to the

apparent futility of the Health Bureau's campaign for the mitigation of the mosjuite evil by the use of petroleum spray have risen up on every hand in most parts of West Philadelphia.
Undiminished in numbers by the bom-

bardment of oil, and as greedy and sharp-set for food as ever, the first of the mos-quite armies of the 1998 enlistment infest-ed the trans-Schuylkill section a few

Reports indicate that the winged warriors are unusually large and "sassy." A
man who lives near Sixty-third street and
Girard avenue told a reporter yesterday
that one of the insects siain by him measured two inches from wing-tip to wing-tip.
Venders of screen doors and screens for
doors and windows have been rushed to
death with orders as a result of the premature arrival of the mosquitoes.

As usual New Jersey is blamed for the
genesis of the swarms.

At the grounds there will be games and
races for the children of the different
classes, and prizes will be awarded to the
winners.

The following named are officers of the
Lafayetts School Patrons' Alliance for
retary; Herman Bretthauer, treasurer:
Thomas J. Taetz, sergeant at arms; Emil
Stamm, delegate Board of Control; A.
Arnhold, alternate; A. C. Rabenau, alternate.

TOO MANY JONESES

All Wished to Have a Hand in Reunion of Pennsylvania Family.

MANY SOUGHT PROMINENCE.

Would Have Taken Eight Days to Carry Out Proposed Programme Giving Various Applicants a Show.

Scranton, Pa., June 4 .- The proposed picnic of all the Joneses in Northeastern Pennsylvania, which was to have been held this summer, has collapsed. There were too many Joneses and too

nany make trouble. The programme of the day was all right as far as it went, but it provided features for only about twenty Joneses, and, as there are several hundred who consider themselves quite as capable of making speeches or singing songs as the twenty who were selected the jealousy thus cre ated was not pleasant.

women who were originally Jonses have married and are now Williams, Davis or Roberts, but they do not see why they were not eligible to attend.

One married woman named Williams wrote that if her mother and father and her brothers and sisters were admitted she did not see that the committee had a right to keep her out and that she did not think the committee was capable of doing it, and if there was any doubt of the matter she was willing to have them test it. Then it was also found that there were more Joneses than even the most liberal promoter of the plan had anticipated and not only was the park likely to overflow, but there were Jones singers, Jones poets, Jones acrobats, Jones humorists, Jones orators, Jones monologists, Jones entertainers, who demanded places on the programme. vomen who were originally Jonses have

fainers, who demanded places on the programme.

It has been roughly figured that if all were given a place it would take eight days of fifteen hours each to complete the programme, without allowing for encores. There were also Jones politicians who said it was all a scheme of other Jones politicians, and there were Joneses who sold this and Joneses who sold that who said that Joneses who sold other things were planning the picnic to make money out of it.

were planning the picnic to make money out of it.

Altogether the promoters of the plan discovered that there were so many Joneses with ideas which differed from their own and so many who wanted privileges that they had stirred up a veritable hornets' nest of Joneses.

"The proposition is too big and we have decided to drop it," explains the committee.

FOUND CANNON TOO MODERN.

Daughters of Revolution Objected to Mifflin Artillery.

REPUBLIC SPECIAL Philadelphia, June 4.-Fort Miffilm's canon are too modern for monuments at Val-

ley Forge.

That is the opinion of the Daughters of the American Revolution. After au inspection of the cannea which frown from the ton of the fort down the Delaware, a committee returned to this city and will seek elsewhere for armament more in keeping with the traditions.

More than a dozen Daughters of the American Revolution went to the fort to inspect the big guns. They rode in the quarantine tug Pennypacker, and stopped at Red Bank, and the battle fought there many years ago was explained to them. Then they proceeded toward the city and dropped anchor near Gloucester.

They viewed the ribs of the old English frigate Augusta, sunk by the guns of Fort Miffin, afterwards raised and towed to Gloucester.

ARM A BAROMETER.

Man Has Never Recovered From Wound Inflicted by Bear.

REPUBLIC SPECIAL Rochester, N. Y., June 4.—Charles Lamo-reux is a familiar figure in the Court-house, having served as Grand-Jury at-

tendant for many years. He was complaining of a pain in the left wrist, and on being questioned showed two white spots where in 1857 a 325-pound bear had clawed him.

had clawed him.

"It was down in Burman's Creek in 1877, in November, I received my hurt from a dead bear. Muscular reaction, you know. I drove a heavy bullet through his heart. He fell down dead. Then, pushing his head back, I drew my knife to bleed him. But the minute the blade touched his throat he raised his forepaw and clutched my wrist. Ever since then my left arm has pained me whenever there is a change in the weather."

LAFAYETTE SCHOOL PICNIC.

Outing Will Be Held To-Morrow at Lemp's Park.

The annual picnic under the auspices of the Lafayette School Patrons Alliance will take place to-morrow at Lemp's Park.
The buting will open with a parade, which will start from the school building, at Ninth street and Ann avenue, at 8:30 a. m. Everyone in line will carry an IR-inch American flag. The marshals are Edward I. Elsieben and A. C. Rabenau. At the grounds there will be games and races for the children of the different classes, and prizes will be awarded to the winners.

CAS RANGES Then there were other faults. Many

Illinois State Medical Society Hopes to Effect Cure of Tuberculosis.

GOOD FOOD IS ESSENTIAL

Patients Will Be Required to Promise That They Will Remain Until Discharged-Site on Bluff Near Ottawa.

REPUBLIC SPECIAL. Chicago, June 4 .- One of the most important moves ever made in this part of the country toward the stamping out of pulmonary consumption will be in-augurated at once by the establishment

of a tent colony at Ottawa, Ill., under the patronage of the Illinois State Medical The site, containing twenty-five or thirty acres on a bluff overlooking Illinois River, has been donated to the use of the colony, and arrangements are now

in progress for the purchase of the tents and other equipments. At first the capacity of the colony will be about thirty patients, though the limit will be increased from time to time. Men and women patients will be received. It is the purpose of the physicians backing the undertaking to demonstrate that the end of April:

tuberculosis can be cured in this climate when not too far advanced, by fresh air when not too far advanced, by fresh air and good food.

The Ottawa colony is to be in the nature of a consumption cure experiment, and physicians throughout the State will be invited to visit and observe its workings. From this beginning it is anticipated that similar camps will be established all over the State.

the State.

The only cost to patients will be the actual expense of the food. This item, it is estimated, will be from fis to its a

MUST PROMISE TO STAY.

Consumptives who avail themselves of the opportunity to regain their health be required to promise when they enter until pronounced cured. From nine months to a year is the estimated resi-dence required. After leaving the colony patients will be observed for two years, and if no sign of the disease reappears in

that time they will be considered perfectly sound.

The tent colony will be open summer and winter alike. Each tent will contain one or two sufferers. The tents will be water-proof, of course, but the freest circulation of air will be allowed, so that the patients will live an outdoor life day and night. A large tent will be provided for a dining-room, and the food will be of the highest quality.

There are many details to be attended to, but Doctor J. W. Pettit of Ottawa, who is at the head of the movement, expects to have the camp in full operation in a couple of weeks.

A son of Doctor Pettit is a civil engineer, and has offered to conduct the work of laying out the site for the tents and looking after the drainage. One plan now under contamplation is to cement the surface of the ground where the tents will stand giving a slope toward the river, thus making it possible to wash the site every day.

It has been suggested that the tents be buff colored, so as to be easier on the eyes. The matter of exercise is one of much importance, and will be looked after carefully. The patients will be graded according to their abilities.

On and after June 15th double daily through sleeping car service through To-conto via Itilnois Central and Grand Frunk Bailways.

Tan Oxfords have the call this season. We take pleasure in announcing that we are well equipped

APRIL DOMESTIC TRADE SHOWS LIGHTER MOVEMENT.

Treffic in Live Stock Retarded by High Water and Bad Roads-Speculation Checks Cotton.

Washington, June 4-Domestic trade novements in the agricultural portions of the country during April are usually lighter on account of the smaller contributions of farming sections to freight traffic. Reports to the Department of Commerce and Labor, through its Bureau of Statistics, cover the current year to

Live-stock supplies during April at the five Western markets continued to arrive in unusual numbers, though rains, high water and bad country roads retarded the movement somewhat toward the close of the month. Total arrivals at Chicago, Kansas City,

Total arrivals at Chicago, Kanasa City, Omaha, St. Louis and St. Joseph exceed two and a hair millions—2,585,672 head. In April 1963, there were 2,461,858 head and 2,189,652 head in April, 1962. Peaturing conditions at the close of the month were good generally, and the country's capacity to hold its stock for favorable marketing was reported to be ample. Those five markets have thus far in 1964 received 11,414,358 head of stock. In 1968 the total was 10,685,769 head, or nearly a million and a half less, while 10,220,542 head were reported in 1962.

nair 1902.

Sight receipts of cotton for eight months of the current crop year amounted to 3,431,242 tales. Of this quantity 6,881,877 hales comprised port receipts, 852,135 bales net overland shipments, 1,540,000 bales Southern mill takings and 178,234 bales left over stocks at interior Exports for the eight months were 5.535.560 bales. Last year exports amounted to 5.385.560 bales, and for the preciding year 5.25,585 bales. Domestic spinners took for the current year Applications of the control year of the control year.

A progressive increase in domestic requirements is aiready checked by inordinate speculation and the consequent unsettling of values. Petroleum shipments from the coast of Texas during April amounted to 74,588 barrels. For the four months ending with April 15 cargoes, containing \$195,571 barrels of petroleum, were reported. W of which salied from Fort Arthur, if from Sabine Pass and 7 from Galveston. Shipments for the first four months of 1908 amounted to 2,008,480 barrels, indicating an increase of 1,137,181 barrels in favor of the first third of the current year.

In the grain trade April withdrawals were 4,78,568 bushels in contrast with 17,260,598 bushels in the contrast with 17,260,598 bushels in contrast with 17,260,598 bushels in a period of four months entry with a pril 1908. TO TEST AUTO SPEED LAW.

\$10,000 Suit Brought Against Town Marshal in New Jersey.

New York, June 4.—John A. Hill of the Automobile Club of America announced after a meeting of the Board of Governors at the clubhouse that he had instructed the club's attorney, W. W. Niles, to bring a suit for \$10,000 damages against John Coon, Town Marshal of Chatham, N. J., and also

to secure his arrest on a charge of assault in having falsely arrested him. These proceedings will be instituted, Mr. Hill explained, to test the speed violation laws. Owners of automobiles are too frequently fined, he says, upon the uncorroborated word of a policeman, while at the same time the autoist produces reliable witnesses to prove that he did not exceed the speed limit. Mr. Hill and W. E. Scarritt, president of the club, were riding in Mr. Hill's automobile in New Jersey a few days ago, when Town Marshal Coon arrested Mr. Hill, who was fined is upon the Marshal's statement that he was going at the rate of fifteen miles an hour. Mr. Hill and his witnesses said that they were not exceeding eight miles.

CONVICT TRICKS MOTHER SEARCHING FOR LOST SON.

Chicago Woman Swindled by J. C. Peyton, a Prisoner in Missouri Penitentiary From St. Louis.

REPUBLIC SPECIAL Jefferson City, Mo., June 4.-A smooth scheme of Convict J. C. Peyton to secure funds by a confidence game while incide the prison walls was discovered to-day when Mrs. M. Lorvig of Chicago visited the prison in hopes of meeting a long-lost

the prison in hopes of meeting a long-lost son.

For eight years Mrs. Lorvig has been searching for her lost boy, and some time ago one of her numerous advertisements was answered by a Missouri convict, who pretended to be her boy.

The part was played by Peyton to answer such notices in hopes of securing money and clothes before found out. The scheme worked well in the case of Mrs. Lorvig, who forwarded money and other articles to Peyton.

Desiring to see her son, the mother came down from Chicago and to-day called at the prison to find she had been deceived.

Peyton was sent up from St. Louis to serve sixteen years for first-degree burglary and larceny.

captivity has just been added to the colciety at Bronx Park, and is known as the

According to Curator Raymond L. Ditmars, these snakes are very seldom seen
in captivity. This latest addition to Mr.
Ditmars's snake family is about six feet in
length, the whole body being a vivid
green, forming a striking contrast to the
others which surround it. The reptile is
said to be one of the most poisonous
known.

It was fed lizards, and when a lizard
was placed near it the snake quickly captured its prey by making a jump from a
coil.

SHOT AS THEY SWAM RIVER. Fugitives Disregarded Detective's Order to Halt.

REPUBLIC SPECIAL.
Cleveland. O., June 4.—A detective discov-Cleveland, O., June 4.—A detective discovered four men in the Baltimore and Ohio yards acting in a suspicious manner.

Disregarding the order to halt, the men fied. Wilson pursued two of them toward the river, firing as he ran.

Without hesitating the two men jumped into the swollen river. Wilson ordered them to return, and upon their failure to do so he fired a dozen shots at them. One of them cried out "I'm shot," and disappeared in the water.

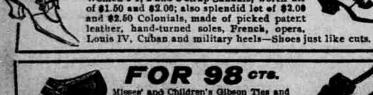

The other reached a bridge abutment. As he clump there the detective fired three shots at him, one of which evidently took effect, as he sank into the water.
